REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The invention as claimed. Claims 1, 7, 11, 16, 19, 24 and 28 specially include limitations based upon the blocked list being arranged to identify nodes and links which are included in protected path segment as being unavailable for selection, and an alternate path segment is automatically determined by using the blocked list (as defined in the specification of the instant application, page 14 line 11- page 15 line 19). Although system and method for computing a primary path within a network is firmly documented by cited prior art, the blocked list being arranged to identify nodes and links which are included in protected path segment as being unavailable for selection, and an alternate path segment is automatically determined by using the blocked list limitations are novel. And the invention is patentable

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention is changed to: **"Method and Apparatus for Computing a Primary Path While Allowing for Computing an Alternate Path by Using a Blocked List"**.
